

**Overloaded with
requirement tracking
and reporting in
complex projects?**

Is progress tracking and reporting robbing your time?

Difficulty gaining an overview of your requirement engineering progress due to the high complexity, that your report builder doesn't account for.

Utilize PowerBI.

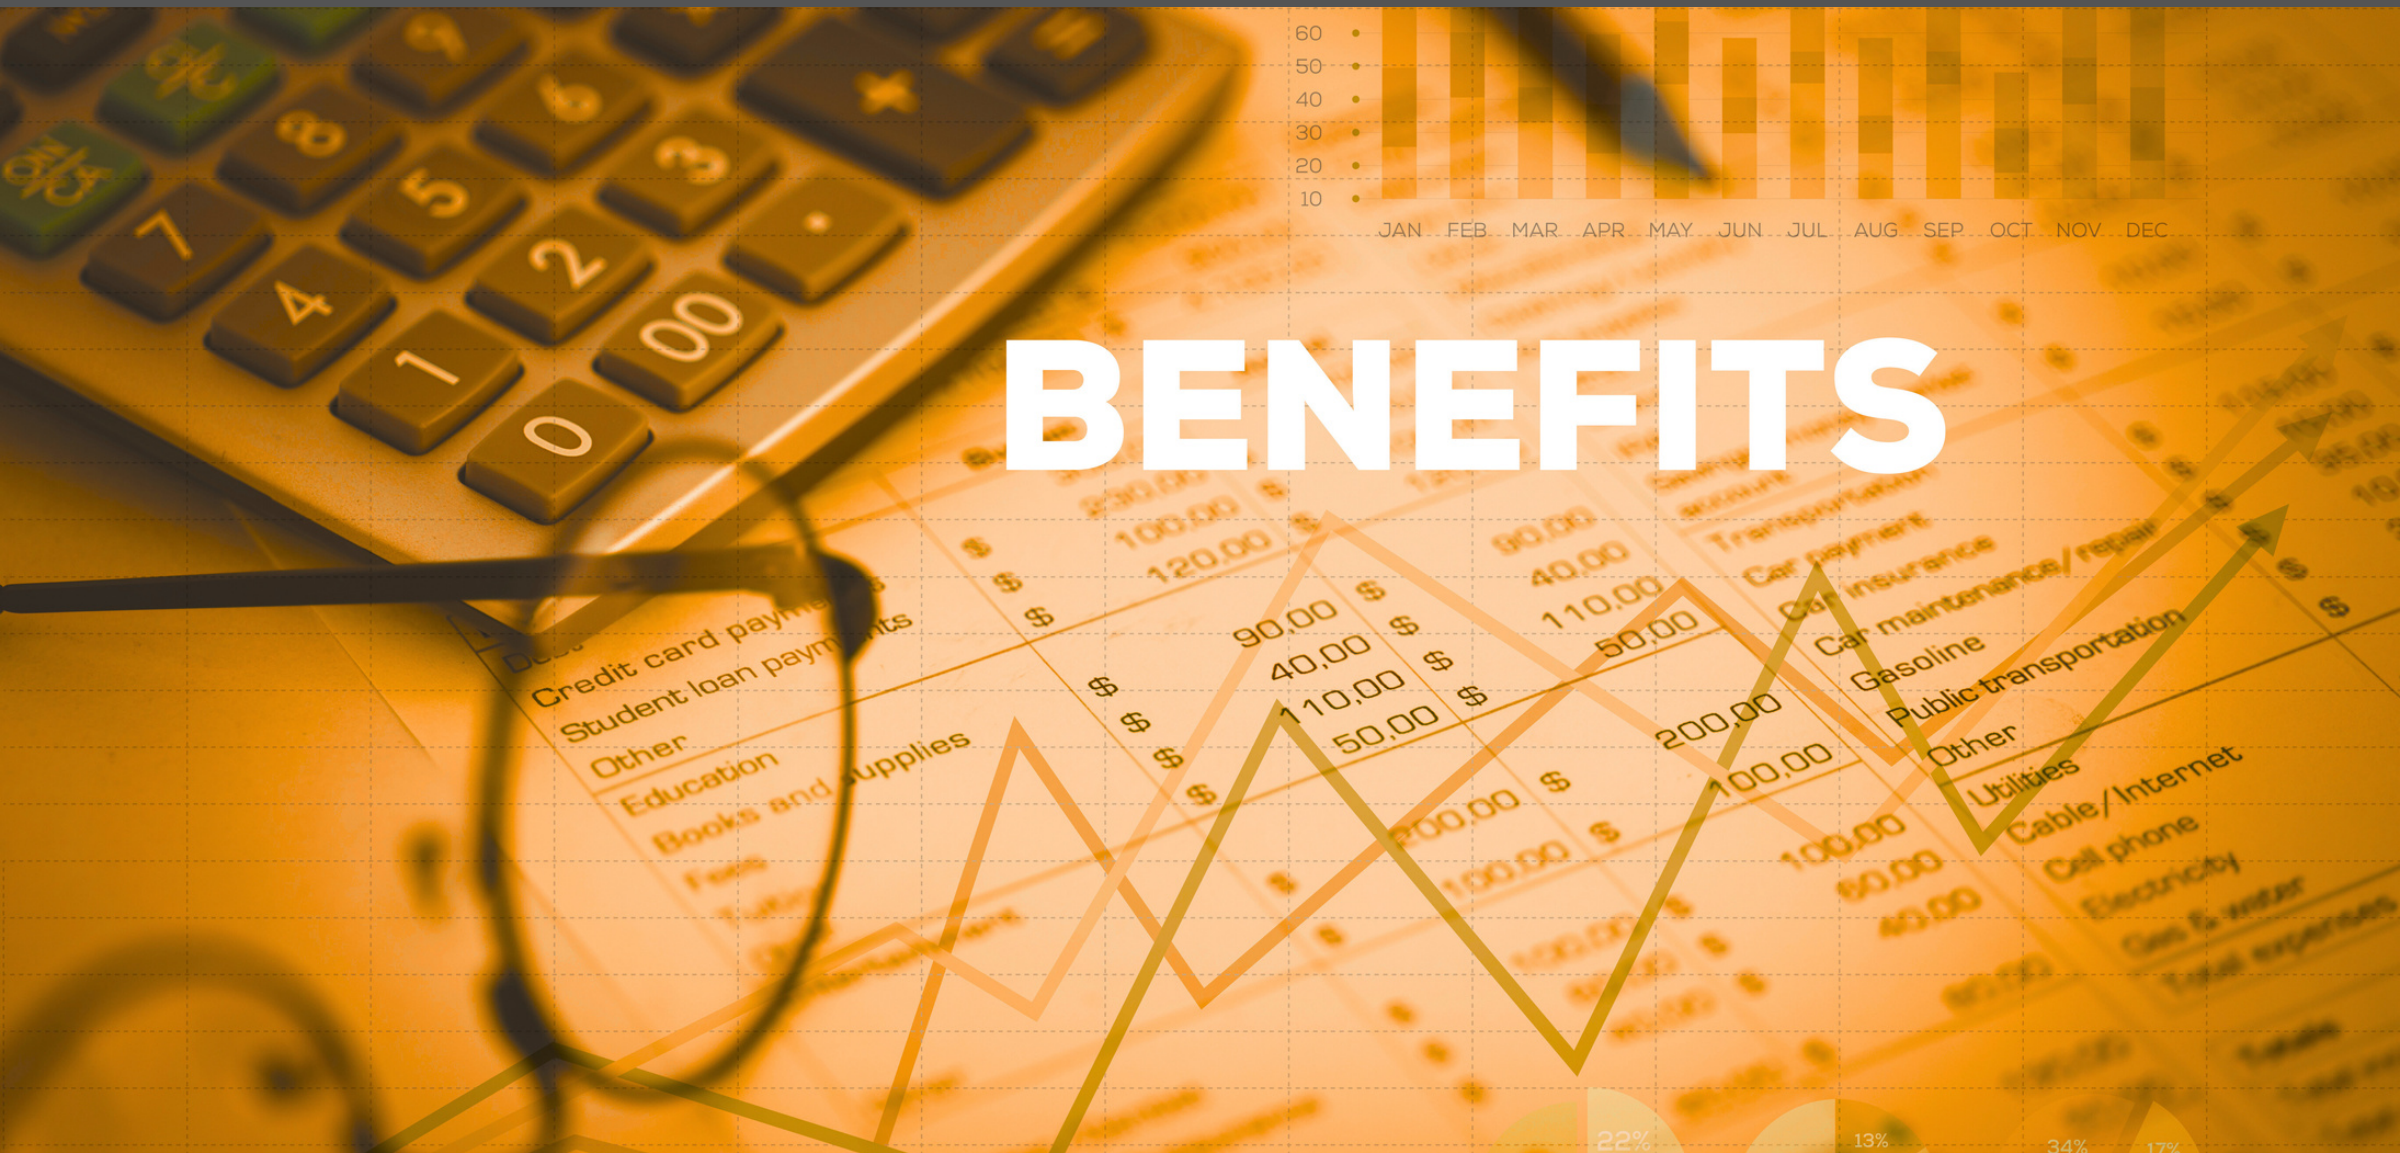

Our Approach:

1. Define Scope & review Documents
2. Export of Data
3. Customization of analysis
4. Review & Final Adjustment

BENEFITS

- Experience with ASPICE compliant development
- ASPICE Audit Experience
- All from one hand
