

**Does your product need to  
comply with the Cyber  
Resilience Act and require an  
SBOM?**

## Your product needs to comply with the Cyber Resilience Act?

The Cyber Resilience Act requires all products with digital elements to have a Software Bill of Materials (SBOM).

For many development teams, this is a completely new topic.

# APPROACH

## Our Approach:

- **We help you decide on the SBOM-format**
  - CycloneDX or SPDX format needs to be selected
- **Analyze your project structure and dependencies**
  - This includes the used programming language(s)
- **Analyze your specific build toolchain**
  - The exact toolchain details are needed for automation decisions
- **We propose an integration into your project environment**

**BENEFITS**

- **You get a Machine-Readable Format**
- **We keep your SBOM updated**
- **Your Documentation is available to Authorities**
